Evolve yourself (and others) with Collective Intelligence

Experience our uniquely Aotearoa–New Zealand approach to peer–to–peer professional development, refined by our founder, [Ian 'Harv' Harvey](#), over the past 25 years.

Activate the power of collective intelligence and cognitive diversity in your daily life.

Tap into our ecosystem of competent and insightful people who support each other to lead change and make a difference in the world.

As a member, you'll meet face–to–face with your carefully curated team, for 6 days each year in a series of facilitated workshops aimed at challenging your growth.

Be the change!

We're proud [BCorp–certified](#) business wellbeing specialists who empower people to evolve, become more effective, and have better relationships. We have a vision...that if each of us, in our corners of society, can create enough space for change – take action now to disrupt what's holding us back – we can collectively grow and navigate a new, more regenerative future.

Diverse, self-lead, group learning

We select for diversity and our teams are drawn from 70+ industries and a multitude of backgrounds and life experiences. We run a selection process to 'make' one of our facilitated teams (you must demonstrate the four attributes shown above) and like any team, you'll need to keep up the work to keep your place.

Work on your business and yourself

Teams meet 3 times a year around the country. Two workshops will focus on team members hosting the group to work on themselves and their business, and one on a team development topic of the group's choosing.

Safe sharing

We design safe environments for you and your team to develop, where confidentiality is paramount. Members are matched with teams to ensure no conflicts of interest – so everyone can practise being vulnerable and share freely.

Your investment

A \$402.50 one–off joining fee plus an investment of \$421.67/month (GST incl.), paid monthly. You cover your accommodation and travel costs to get to meetings. Are you an SME or NGO? NZTE funding support may be available to offset your fees, or you may qualify for our 'Community Good' fee (\$364.17 /month).

"It challenges me to be the best version of 'me' I can, and by my choice."

SENIOR MANAGER, ADVERTISING AGENCY

Challenge yourself to evolve, collaborate and collide in a fun, safe and respectful space
